

**We know how to
create ready meals
packaging for a
variety of uses.**

**For years, we've been
developing cutting-edge
flexible lidding films for ready
meals that guarantee optimal
functionality and fresh flavor.**

Our products feature ease of use, along with functionality and esthetics.

Sustainability

Developing and producing strong, light films and bags – low carbon footprint

Shelf Impact

Various options for shaping and printing films, unrivaled transparency & gloss

Convenience

Improving packaging functionality with easy opening and reclosable products

Performance

High-quality, high-machinability, time-saving, cost-effective solutions

In the air or on the ground, for meals on wheels, airline service, retail or institutional use in schools or hospitals

Did you know?

Plastopil's lidding products are environmentally friendly. How? Our films use a fraction of the material of a multi-component rigid lid tray, so you'll see an immediate source reduction.

Toplex

A hermetic seal with locked or easy opening that truly performs; for packagers, retailers and consumers. Excellent sealing to PE, PP, PS and aluminum trays

Features & Benefits

- Reliable – hermetic sealing, even through product residue, fatty contamination and grease. Product integrity is secured along the supply chain
- Multipurpose – specially designed to fit different packaging machines and minimize downtime
- Fresh – excellent high barrier properties deliver long and safe product shelf life
- Impact – good clarity for optimal product presentation, can be reversed printed for best retail presentation, contains anti-fog properties
- Versatile – sealing to various polymers: APET, CPET, PP, PS, PVC, PE; broad sealing temperature range, allowing maximum production flexibility

Topaz

Extremely thin gauge film, combining exceptional optical properties with consistent sealing to PET

Features & Benefits

- Versatile – range of seal types including burst peel, locked seal and reclosable
- Optimal shelf impact – excellent transparency, gloss & clarity, excellent anti-fog for chilled food products, printable for package presence enhancement
- Superb machinability – excellent film flatness and stiffness
- Reliable – secure hermetic sealing properties can seal through fat and food residue
- Microwavable - for defrosting and reheating

Topaz Thermo-Cook

Permeable or non-permeable self-venting, oven-safe film with exceptional optical properties. Specifically suited for PET-based trays

Features & Benefits

- Dual ovenability – microwave and standard oven, withstanding temperatures from -40°C to 200°C (-40°F-392°F)
- Seals to mono APET and APET sealing layer
- Range of seals types including burst peel and locked seal
- Different barrier levels, including HB-high barrier, MB-medium barrier and LB-low barrier
- Laser perforation available for pressure release or breathable EMAP/CAP packaging

Plastofresh HB HD

A high barrier VSP film suitable for refrigerated ready meals

A New
Approach to
Ready Meal
Packaging

Features & Benefits

- Featuring "second skin", optimum gloss and clarity properties
- Providing production flexibility and trouble-free work at a wide range of temperatures
- Excellent sealing ensuring product's safety and freshness with a secure vacuum
- Offering ideal product presentation, keeps portions fresh and unmixed on the tray
- Providing convenience to consumers, even heating, and self-venting in the microwave

Packaging Solutions

In the store or delivered to the home or office, served in a school or on an airplane, different ready meals require different formats. Because meeting our customer's needs is our highest priority, we offer a diverse portfolio of solutions.

Wide Assortment of Features for Your Ready Meal

Choose from our comprehensive portfolio of films the features that suit your ready meal:

Multiple barrier levels

To extend product shelf life

Wide range of thicknesses

Including ultra-thin films to increase line productivity

Variety of sealing layers

Tailored to fit tray type and end-user experience

Laser perforation options

For pressure release or breathable EMAP/CAP packaging

Add-on features

Anti-fog, laser perforation and peelable features tailored to fit tray type for a great end-user experience

Advanced printing technology

Attractive graphics and designs

Plastopil is a global company, specializing in the development, manufacture and sales of an extensive array of high-tech flexible packaging for the chilled food market.

Plastopil: At a Glance

**FOUNDED IN 1960,
IN NORTHERN ISRAEL,
NEAR NAZARETH**

**ISO-9001, HACCP AND
BRC-IOP CERTIFIED**

PUBLICLY HELD SINCE 2005

**MANUFACTURING
CAPABILITIES FROM
EXTRUSION TO CONVERSION**

**INTERNATIONAL NETWORK
OF DISTRIBUTORS AND
PACKAGING PARTNERS IN
MORE THAN 20 COUNTRIES**

**HIGHLY TRAINED R&D
TEAM WITH 5 DECADES OF
EXPERIENCE WORKING WITH
RESIN AND BLOWN FILM**

How are we flexible for you?

PERFECT FIT

Our products are tailor-made for a wide variety of foodstuffs and customers' requests.

CUTTING-EDGE IDEAS

Our passionate R&D professionals anticipate and solve problems using newest technology.

WHATEVER YOUR NEEDS

Our customer support team is dedicated to you and ready to listen.

FROM EXTRUSION TO CONVERSION

Our state-of-the-art facility is capable of handling your biggest challenges.
